2. It is our intention to keep this documentary as much an in-house production as possible in order to minimize cost. We also would envision the use of Printing Services Division wherever possible.

3. We would like to initiate the effort immediately and request that OTR make arrangements for filming of the CORONA Museum ceremony at NPIC during October 1972. It is hoped that work on the film itself can be completed no later than 1 January 1974, the date set for termination of all CORONA contracting. The OSP contract for this film production will be [REDACTED] of the Photo Reconnaissance Systems Division.
